

AONano Precision Series

Industrial Green nanosecond laser

- < Wide operating frequency range 50-300kHz
- < Output power of 90W+
- < End mirror adjustment
- < IP65 protection rating

► Features & Benefits:

This is the high-power version of our AONano Compact-532 laser series. The all-in-one design makes the laser more compact and reduces the total weight. It saves space for installation on the customer side, lowers the integration cost and simplifies the installation process. The water-cooled design allows the laser to work reliably in various harsh and extreme environments and makes the laser to be the ideal candidate for the 7x24 non-stop production needs.

The IP protection level is upgraded to IP65, the waterproof and dustproof level of the laser is upgraded, which can easily cope with the extreme environment and solve the problem of condensation brought by high temperature and high humidity environment. Advanced features, including crystal indexing, cleaning air system, and automatic power optimization function enable the long-term stability and reliability of the laser.
